ON BLACK

We hear the sound of a PLANE MODEL MOTOR in high pitch, full speed, mixed with the TIC-TAC of a clock.

FADE FROM BLACK

EXT. WASHINGTON / PARK - DAY

A golden toy plane flies over a park, the props spinning at full speed. A clock in the nose, ticking. A small green light in the center of the clock. The weather is cold but the day is sunny. It's Sunday and the park is full of people.

The plane flies really fast, performing acrobatics, twists and sudden turns. The toy plane avoids several persons, passes through a dog's legs, flies under a fountain water stream. The plane is beautiful and it reflects the light with shiny golden sparks.

V.O. WOMAN
It's the Toy Plane!

INT. PLANE COCKPIT - DAY - VFX

The inside of the plane is full of small screens in green and blue colors. The sound is very loud here, specially the TIC-TAC. The screens are tracking all objects that its little cameras can see.

There's a photo of a little smiling boy on one of the screens. Another screen focus on live footage of a little boy, very similar to the photo. All the face is scanned and tracked and then a green light turns on and a message fills the screen in Japanese.

SUBTITLE: "Locked"

EXT. WASHINGTON / PARK - DAY

The toy plane performs a last twist and goes right into the boy's hand who jumps to catch it. The boy is excited and laughing. He throws the plane again, and the plane goes up into the air.

NARRATOR
This last Christmas, Japan hit the world with the amazing Toy Plane.

EXT. SKY - DAY

The plane gains height and flies gracefully against a wonderful blue sky. More planes come into view...

at first it's just a couple more, then some dozens, and finally hundreds of little toy planes fly everywhere from here to there, every one of them looking for its owner.

The clock in our toy plane is one minute to 12:00. The toy plane flies down again, turning like a twister.

NARRATOR

All the world was enchanted with
this new technology.
